Sir

x4 S. 21-13

As the Men from Cambridge design'd for the
work on Newk Hill cannot be sent to Night, his
Excellency Commands that you take off their employ'd
on the Knoll next the Castle, and set them to work
on Newk's Hill with as many ^{more} as can possibly be
spaid from the Heights — He begs you would
be particularly attentive that they stick close to
their duty, as much depends on their Deal and
industry the ensuing Night —
